Work Experience

Recruiter (Intern) at StarChase Executive Search

May 2019 to June 2019

Skills Learnt:

- Communication and listening- Learnt how to talk professionally to candidates.
- Marketing- Had to sell the position and the company to the candidate.
- Analytical skills- Had to go through hundreds of resumes in a day to find potential candidates for roles. Used data sorting as well as correlating a few keywords to job profiles to make finding good resumes easier. If the candidate had certain keywords in his resume, he was more likely to be a good fit for the role.
